FEATURES

Columbia SP 4000

The Model SP4000 High level palletizer from Columbia Machine India provides an optimal price and speed combination for medium to high speed applications with a small foot print. SP 4000 can handle a wide variety of package types, including cases, trays, totes and display packs from a variety of industries including canned and frozen foods, beverage and many more. The SP4000 Palletizes 50 to 60 cases per minute, depending on case size and pallet pattern.

The SP4000 is capable of forming patterns with gaps in both directions using a bi-parting stripper apron. Combined with Columbia's state-of-the-art Product Manager, the controls package offers users an easy-to-operate palletizer meeting current and future pattern needs. They may be considered as grey literature. Most jurisdictions require companies to prepare and disclose annual reports, and many require the annual report to be filed at the company's registry. Companies listed on a stock.
